

Watershed Tools for Local Leaders 2020 Seminar Series

Get the Lead Out: Working Together for a Lead-free Community

Presenters:

Liz Hernandez, Environmental Health Specialist
Central NJ Lead and Healthy Homes Coalition

Scott Baxter-Green, Manager Water Quality & Environmental Compliance
New Jersey American Water

Mara Tippett, Watershed Scientist and Well Testing Program Manager
Raritan Headwaters Association

Wednesday, March 25

3 - 5 pm

Bridgewater Township
Free Public Library

1 Vogt Drive, Bridgewater, NJ

Lead poisoning is a serious hazard, particularly for young children. This free seminar will provide information on ways to reduce exposure and combat lead contamination of residents' homes and drinking water supply. Topics will include health impacts of lead exposure, an update on the NJ Future Lead Task Force, lead testing and treatment programs for your municipality, and current actions being taken by water purveyors to protect public health.

Seminars are free, donations are appreciated.
